

Cyclospora sp., *Cryptosporidium* sp., and *Isospora belli*

Oocysts in stool smears stained with modified acid-fast stain:

A - *Cryptosporidium parvum*;

B - *Cyclospora cayetanensis*;

C - *Isospora belli*.

Oocysts in stool smears stained with safranin stain:

D - *Cryptosporidium parvum*;

E - *Cyclospora cayetanensis*;

F - *Isospora belli*.

Wet mount preparations:

G - *Cyclospora cayetanensis* sequence showing sporulation event from unsporulated oocyst (far left) to sporulated oocyst containing 2 sporocysts (far right);

H - *Isospora belli*;

I - *Cyclospora cayetanensis*.
